

**PUBLIC AWARENESS NOTICE
RECOMMENDED PRACTICES 1162
NATURAL GAS TRANSMISSION PIPELINE**

As a continuing effort to promote public awareness in the city of Bainbridge, information is available to key stakeholders (affected public including landowners and residents, local and state emergency planning and response officials, local public officials and governing councils, and contractors) regarding the safety, leak recognition, hazard prevention, and pipeline purpose of natural gas at the City's Utility Department located at 1503 Pierce Street. Hours of business for the Utilities Department are Monday through Friday from 8:00 a.m. until 4:30 p.m. This information is available in English and Spanish and will be provided upon request.
